

Steel Building Range

Leading Supplier of Insulated Steel Buildings

Welcome to Hanson Steel Buildings

We are proud to introduce you to the most innovative and extensive range of steel buildings in the UK.

Throughout our long established history, Hanson Steel Buildings have built up a reputation synonymous with quality and customer satisfaction.

Our steel buildings are manufactured using high quality galvanised steel frames in a range of colours plus two wood effect finishes all backed by our 10 year structural guarantee, you'll be surprised at how they compare to other building solutions.

Each of our buildings are delivered and installed by our teams of highly qualified installers. We can also provide a full turnkey solution, which includes the removal of your old building and a concrete base laying service.

Why Choose Hanson Steel Buildings

CE Marked Product

Our product is CE Marked for the manufacture of steel fabricated sectional structures.

Bespoke Designs

All buildings are unique and can be built to your own size and design depending on your exact requirements.

Wide Range of Colours and Finishes

Your building can be built in a range of standard colours or upgraded to a woodgrain finish.

Strong Galvanised Steel Framework

All frames are made of heavy duty, structural grade galvanised steel sections.

Different Levels of Insulation

Select from a range of insulation levels including the option to upgrade to 40mm, 80mm or 100mm insulation.

Groundwork and Removal Service

We can provide a full turnkey solution, which include the removal of your old building and a concrete base laying service.

Quick Installation

Our prefabricated panels enable a quick hassle free installation by our highly qualified team of installers.

Install in Tight spaces

Our buildings design means that we have the ability to construct within a few inches of an adjacent building or site boundary

Maintenance Free Buildings

Our buildings are maintenance free saving you time and money.

10 Year Guarantee

All buildings include a 10 year guarantee giving you peace of mind.

Domestic Garages

Our range of garages are perfect to ensure your vehicles and prized possessions are stored in a secure and dry environment.

We understand that every home is different and can provide our customers with a bespoke design service. We can provide a range of classic or contemporary designs to compliment your property.

We offer a wide variety of colours and finishes and a number of different levels of insulation regardless of the style or size of garage you require.

Our garages can be designed for a variety of uses, including vehicle storage, vehicle maintenance, workshops, valeting, general storage and are also a popular option for the storage of classic cars.

Our doors offer excellent durability and long-lasting performance. For those who want the ultimate in convenience we offer a range of motorised garage doors. With advanced features like remote control operation and built-in safety sensors, our motorised doors are the ultimate in convenience and security.

Sheds & Workshops

As a leading manufacturer and supplier in the industry, we take pride in delivering the highest quality products that meet your unique needs.

Our range of sheds and workshops offer an attractive solution for the storage of equipment.

Whether you're a DIY enthusiast or require extra space for a hobby, we can help you design a building that has everything you need. These buildings provide a working area that is dry and secure.

With over 30 years experience, our steel range offers you excellent value for money, elegant design, maintenance free, bespoke solution for any application.

Our steel buildings are manufactured using high quality galvanised steel frames and available in a range of cladding colours plus two wood effect colours all backed by our 10-year structural guarantee. In addition, there is a range of optional extras you can incorporate into your building design. (see page 15)

With the fastest on-site installation in the market we are able to offer a low-cost solution to suit your needs.

Garden Rooms

Whatever vision you have for your garden room, we can help you create something to meet your needs.

Our buildings are perfect if you work or study from home or have a hobby that requires extra space in a warm and secure environment.

Typical uses include man cave, home office, beauty salon, gym, cinema room, or simply a modern, cosy environment to entertain guests in.

Garden rooms can be supplied with a pent or apex roof and with a large range of custom options such as full height windows, roof styles finishes, french doors and personnel doors (see page 15). You can also choose from a range of colours and wood effect finishes.

All garden room frames are constructed from high quality galvanised steel. Our wall and roof panels are available from single skin up to 100mm insulation levels.

As standard our Garden Rooms come with highline steel guttering and a 10 Year Structural Guarantee to give you peace of mind you can enjoy our building for many years to come.

Enhance Your Garden Room

Your building can be supplied with framework at 600mm centres to make internal lining simple, includes pre-punched holes into the frame to aid electrical installation.

Classic Car Storage

Our buildings are perfect for storing classic or prestige vehicles. This ensures they are safe from theft and are protected from weather conditions that can make the quality of the vehicle deteriorate.

The different styles of garages include a building with a roof or with a canopy and those without. You can get one built as large or as small as you prefer so as to fit in the space where you would like the garage to be.

We offer a comprehensive range of manual and motorised main doors. Our doors come in a variety of styles and colours, ensuring that you can find the perfect match for your home's exterior.

Our doors offer excellent durability and long-lasting performance. For those who want the ultimate in convenience we offer a range of motorised garage doors. With advanced features like remote control operation and built-in safety sensors, our motorised doors are the ultimate in convenience and security.
